APPROVAL CERTIFICATE
AERO-GUIDANCE MK 5T (TWIN) SYNTHETIC TRAINER SYSTEM

This is to certify that the **Aero-Guidance Mark 5T (Twin) Synthetic Trainer System**, being a computer-based system produced by **Kinetic Technologies International Pty Ltd**, 1 Kembla Street Cheltenham East VIC 3192, having been assessed as complying with the required specifications, equipment, handling and operating requirements, has now been designated as an approved Category B synthetic trainer system for un-supervised, non-instructional use, for the purpose of:

- (a) accruing instrument ground time, and
- (b) for satisfying instrument approach recency requirements.

This certificate remains valid for the Mark 5 software program currently approved by the Authority and for any changes subsequently approved by the Authority.

The conditions governing sub-paragraphs (a) and (b) are as set out in the relevant Civil Aviation Regulations or Civil Aviation Orders.
